# LIVE AUCTION

# The Legend of the Starfish

A vacationing businessman was walking along a beach when he saw a young girl. Along the shore were many starfish that had been washed up by the tide and were sure to die before the tide returned. The girl walked slowly along the shore and occasionally reached down and tossed the beached starfish back into the ocean.

The businessman, hoping to teach the girl a little lesson in common sense, walked up to the girl and said,

“I have been watching what you are doing. You have a good heart, and I know you mean well, but do you realize how many beaches there are around here and how many starfish are dying on every beach every day. Surely such an industrious and kind hearted girl such as yourself could find something better to do with your time.”

Do you really think that what you are doing is going to make a difference?”

The girl looked up at the man, and then she looked down at a starfish by her feet. She picked up the starfish, and as she gently tossed it back into the ocean, she said,

“It makes a difference to that one”.

## 18. Golden Opportunity

If ever there was a dog breed that is happy-go-lucky almost to a fault, it is the golden retriever. Nowhere else in the world of dogdom will you find such a devoted canine or a dedicated companion - the classic dog axiom of being man's best friend must have been coined by a guy with a golden retriever either in the passenger seat or curled up at his feet. They are people-dogs, plain and simple; sure they like to roughhouse with other dogs or frolic with a group of puppies, but the word "content" reaches its fulfillment in describing a golden in the presence of his owner.

They have the patience of Job, the temperament of a child, and the disposition of a saint. They are companions to the end, can be trained for a variety of service needs, are worthy hunting partners and all around good comrades.

How can you resist this golden opportunity?

## 19. Under the Tuscan Sun

Entice all your senses with the sights and sounds of centuries past in the beautiful Tuscan historic medieval village of Il Borro, once the property of the King of Italy. Il Borro was originally a baronial fortress surrounded by a moat, and this picturesque village, with its typical medieval urban plan, still dominates the estate today! This village has been caressed by the hands of man and the Estate has been lovingly and faithfully restored to its former glory by its present-day owners, the Ferragamo Family.

After a relaxing morning exploring the village, journey to the local osteria for a leisurely Tuscan lunch of fine foods and wines enjoyed on a sun-drenched terrace or by a cozy log fire. Later on your afternoon stroll, you'll breathe in the warm fragrances of rosemary, sage, and the many flowers of the peaceful countryside and be soothed by the sound of the babbling brook in the valley below. At the end of the day the cares and worries of everyday life will seem a million miles away as you watch the sun slip lazily away behind the hills.

This quaint centuries-old dwelling is situated just past the stone bridge that leads to the village. The apartment accommodates four people comfortably and is decorated with beautiful Italian ceramics.

*Note: Available for one week anytime of year, subject to availability.*

*Dates to be mutually agreed upon with owners. Airfare not included.*

*Must be used before March 18, 2008.*

*Donated by: Donald Foley and Barbara Long*

*Summer Outreach at Convent of the Sacred Heart*

Created in 1992, the Summer Outreach Program at Convent of the Sacred Heart is a coeducational academic, spiritual, athletic and social enrichment program for economically disadvantaged students in grades 2-9 from Westchester and Fairfield counties. The five-week program is staffed by experienced teachers and is comprised of four academies: Summer Academy (for boys and girls grades 2-6), Science Academy (for girls grades 6-9), Humanities Academy (for girls grades 7 and 8), and the Athletic Academy (for boys grades 6-8). Its mission is to create an environment that provides a unique and stimulating learning experience that will make a difference in the students' academic performance and their future.

Last year the Summer Outreach Program served 215 children from our area. The continuation of the program depends entirely upon the generosity of individual donors. A donation of \$800 will sponsor a single child for the five-week summer period. One donation at a time, one child at a time, we can make a very important difference in the lives of these children!

*Donations to Summer Outreach will be accepted during the Live Auction portion of the Sand Pebble Ball.  
 Please give generously.*
